Our concept

From the entire range of watches from UHR-KRAFT® you can choose your favorite, no matter if classic elegant (e.g. Classic 12 & Date), sporty resilient (NG1), fashionable extroverted (DualTimer 45 &54) or from the section of pilot watches (Pilot 7750 Blue).

Within the chosen model you have various components at disposal to create your own desired watch. You want a unique watch?

This is how you create your watch. Chose the casing color you like most (e.g. steel, IP black coated, IP rose gilded):

- ❖ The crown (e.g. steel, IP black coated, IP rose gilded)**
- ❖ The pusher (e.g. steel, IP black coated, IP rose gilded)**
- ❖ The dial (e.g. black , white, blue, brown)**
- ❖ The hands (e.g. steel, black, blue, red, rose gilded)**
- ❖ The lugs(e.g. steel, IP black coated, IP rose gilded)**
- ❖ The straps (here you have the choice between different steel- and leather straps)**
- ❖ The clasp (e.g. Butterfly clasp, pin buckle)**

***The variety depends on the chosen model. Customized color variation or refinements are possible for early requests (6-8 weeks earlier)**
